TicTacToe

Administration manual
If you are using windows command prompt, run the following commands to start the program:
If you are using bash or shell insert <code>./   </code> before each command.
1. Open up cmd and navigate to where you unzipped Tic Tac Toe repository. eg.
<code>cd C:\users\'username'\Desktop\TicTacToe</code>
2. Execute the command: <code> gradlew build</code>
    * <code>gradlew build</code> Gradle runs all test cases and checks if the program
is ready to run.
3. Execute the command: <code> gradlew run</code>
    *<code>gradlew run</code> will run the game. A greeting from the game will appear
in the console and awaits you to make your first move against the computer.
